

# Vision of tomorrow.

De Lorean picked Sylvania Halogen Sealed Beams for its advanced DMC-12.

Futuristic gull-wing doors. Brushed stainless steel body panels. Revolutionary, light-weight ERM and GRP body materials. And Sylvania Blue Dot Halogen Sealed Beams for state-of-the-art night-driving visibility. That's *The Visible Difference* in De Lorean Motor Company's unique new DMC-12, the high-performance sports car designed for efficiency, comfort and long life.

Light years ahead of what's in your car now.

Providing twice the light intensity down the road and substantially greater seeing distance, Sylvania Halogen Sealed Beam Headlamps generate a whiter, brighter light that gives drivers improved visibility - with the same electrical system. Your entire night driving safety zone is increased so you can spot images on the road far faster, in time to avoid accidents. Enjoy safer, more comfortable driving every time. **\$5 Rebate** now available at participating stores.
